EARLY DAY PEARL DIVERS

AN ASSOCIATION THAT EXISTED IN PULASKI COUNTY.

Jury Finds Against Editor in Assault Case-General News from Different Parts of Indiana.

Special to the Indianapolis Journal. WINAMAC, Ind., Oct. 20 .- The Indiana pearl craze brings to light that among the old historical papers filed in the archives of the auditor of Pulaski county were those of the "Pearl Divers' Association." During the year 1846 a resident of this county read about a fisherman finding a mussle shell containing a pearl of rare value which sold for several hundred dollars. This filled the resident with great visionary ideas and he began searching in the bed of the river until he found a mussle shell containing a small pearl. His heart gave a bound and visions of immense wealth swept through

river and the "Pulaski County Pearl Diver Association" was organized. The stockholders ceased work on their farms and the work of exploring the river was commenced. Several hundred dozen pearls were found and the company sent a trusted agent to St. Louis to find out their actual cash value. It was found that among his samples were pearls worth \$25 to \$100 apiece. The agent returned home and laid before the stockholders the information of the golden fortune in store for them. The membraska and Kansas-Fair on Wednesday and bers of the Pearl Divers' Association worked day and night and were abundantly rewarded, gathering several bushels of pearls. They sent their business manager down to Cincinnati to dispose of the pearls. On his arrival there he called upon a lapidacy and the agent was informed 'that if he had brought along the shells he could give him about \$1 a bushel. The agent packed up his samples and went to Philadelphia and the information received there was that the best of the pearls in the lot were worth from \$1 to \$2 apiece, and that some were worth 50 cents a bushel. Illinois Club Protests Against Wabash River Levee.

Special to the Indianapolis Journal.

SULLIVAN, Ind., Oct. 20 .- A party of Marshall, Ill., club men will add their efforts to those of fifteen persons who have already filed suits in the Sullivan Circuit Court appealing from the establishment of a five-mile levee along the Wabash river. The Marshall Club owns an acre of ground on which is a clubhouse on the west bank of the old bed of Wabash river. Twentyfive years ago the spot where the house stands was on the west bank of the main channel of the river, but during a spring freshet the Wabash cut a new channel, eli-minating a wide sweep to the east. The building of a levee would make the holdings of the Marshall club valueless for fishing purposes, as the old bed would have no outlet to the river. The land lying be

The situation is further complicated by the fact that the line between Clark and Crawford counties, Illinois, dissects the 1,000 acres in the cut-off and the levee, which, as proposed is to follow the main channel, would be built not only in two States, but also in three coun-The objectors to the levee contend that the law does not authorize the construction of a levee in two States.

Dr. Shoop's Rheumatic Cure

Costs Nothing if It Fails

Any honest person who suffers from Rheumatism is welcome to this offer. For years I searched everywhere to find a specific for Rheumatism. For nearly twenty years I worked to this end. At last, in Germany. my search was rewarded. I found a costly chemical that did not disappoint me as other Rheumatic prescriptions had disap-

pointed physicians everywhere. I do not mean that Dr. Shoop's Rheumatic Cure can turn bony joints into flesh again. That is impossible. But it will drive from the blood the poison that causes pain and swelling, and then that is the end of Rheumatism. I know this so well that I will furnish for a full month my Rheumatic Cure on trial. I cannot cure all cases within a month. It would be unreasonable to expect that. But most cases will yield within thirty days. This trial treatment will convince you that Dr. Shoop's Rheumatic Cure is a power against Rheumatism-a potent force

against disease that is irresistible. My offer is made to convince you of my faith. My faith is but the outcome of experience-of actual knowledge. I know what it can do. And I know this so well that I will furnish my remedy on trial. Simply write me a postal for my book on Rheumatism. I will then arrange with a druggist in your vicinity so that you can secure six bottles of Dr. Shoop's Rheumatic Cure to make the test. You may take it a full month on trial. If it succeeds the cost to you is \$5.50. If it fails the loss is mine and mine alone. It will be left entirely to you. I mean that exactly. If you say the trial is not satisfactory I don't expect a penny from

I have no samples. Any mere sample that can affect chronic Rheumatism must be drugged to the verge of danger. I use no such drugs for it is dangerous to take them. You must get the disease out of the blood. My remedy does that even in the most difficult, obstinate cases. It has cured the oldest cases that I ever met, and in all of my ex-perience, in all of my 2,000 tests, I never found another remedy that would cure one chronic case in ten. Write me and I will send you the book. Try my remedy for a month, for it can't

harm you anyway. If it fails the loss is Address Dr. Shoop, Box 790, Racine, Wis. Mild cases not chronic are often cured by one or two bottles. At all druggists,

PROBABLY GET LITTLE.

It is reported that Mayor Holtzman is having some little trouble in settling on his appointments on the city Health Board, and that he has stirred up a hornet's nest even before he has announced the names of the members of the new board. Members of the faculty and board of trustees of the Indiana Medical College are said to be playing the roles of the

There has always been some little rivalry between the Indiana Medical and the Central College of Physicians and Surgeons for control of the Board of Health, the control carrying with it the appointments at the hospitals, a thing to be desired by both colleges. The Indiana was for Holtzmen in the recent campaign, members of the faculty and board of trustees not only working actively for the Democratic candidate, but also, it is said, contributing to the Democratic campaign fund. Naturally, they believed that when Holtzman, it elected, made his appointments on the Board of Health he would discharge his

obligations to the men of the Indiana. It is now reported that the mayor has proved an ingrate, and has practically determined on giving the control of the board to the Central College. Representatives of the two colleges called on the mayor yesterday to recom-

mend various physicians for appointments on the board, and it is said that the rivalry is at white heat.

Newlin Gives a Dinner. Charles E. Newlin, chairman of the Prohibition State committee and manager of the campaign of George Hitz in the recent municipal fight, last evening gave a dinner at White's cafe to the representatives of the city newspapers who handle political news. The dinner was not exactly the result of a wager, for the chairman of the Prohibition organization would not make a bet, but it grew out of something that closely resembled a wager. During the campaign Chairman Newlin claimed great things for Mr. Hitz, his views being exfrom day to day finally told him that after the election, if he falled to "make good" on his claims of a certain and overwhelming victory for Mr. Hitz, he would have to

"make good" to them by giving a dinner. He agreed, and last evening "made good."
